

Emergency Clinician Mentorship Program

Fast track to a rewarding career in ER medicine.

Enhance your diagnostic and therapeutic capabilities and hone your communication skills when you join the MedVet Emergency Clinician Mentorship Program (ECMP). The accelerated training program provides the opportunity for you to gain the knowledge and skills necessary to be an exceptional emergency clinician in an organization owned and led by veterinarians. We practice the highest quality emergency and specialty healthcare, delivering an unrivaled experience to our patients, clients, and referral partners.

As a MedVet ECMP doctor, you'll receive all the benefits you expect, plus:

Exceptional
1:1 Mentorship

Student Debt
Repayment Assistance

Full Doctor's Salary
from Day One

Long-term
Career Support

Sign-on Bonus

Shareholder
Opportunities

Support for
Mental Health

"I truly owe all that I am as a veterinarian to the ECMP program. It was so tailored to what I needed as a new ER doctor that I couldn't think of a better way to acclimate to this profession. It was the perfect amount of supervision early on with a very natural and gradual transition when you are ready to be more independent."

- Dr. Michelle Brumm, Emergency Veterinarian and Former ECMP Participant

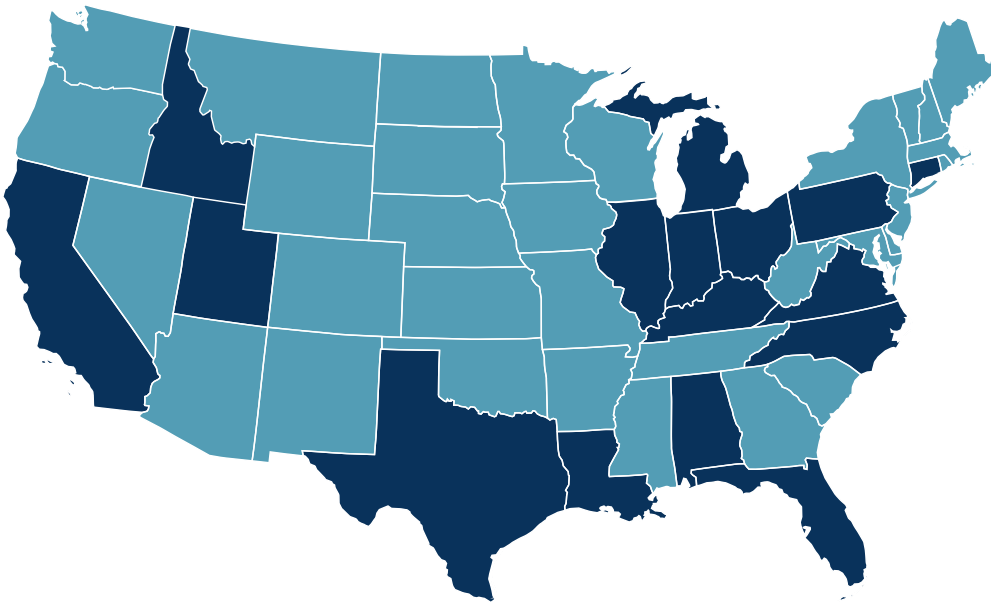

"The ECMP is the premier training program for developing ER veterinarians. They are entrusted with all the duties of an emergency veterinarian, but with their mentor by their side, they are never left alone or lost in the shuffle. This program is tailor-made to fit the unique needs and goals of the mentee and, as a result, they show unbelievable clinical growth faster than you could imagine."

- Dr. Mackenzie Ruehl, DVM, Medical Director at MedVet Hilliard, and ECMP Training Director

Program Highlights

-  ER doctor schedule and shift expectations.
-  Specialty rotations with an ER focus.
-  Personalized program and progression to support your individual growth and development.
-  Competitive ER doctor base compensation and production beginning year two.

We have ECMP opportunities at MedVet hospitals in several states.
